

MACKAY DAM REPORT IN Is a Complete Vindication of the Conclusions of Mr. Lippincott.

THE CITIZENS OF MACKAY ARE ALSO VINDICATED

Defects in the Work Due
to the Plans and Specifi-
cations.

BY C. E. ARNEY.

Sept. 9.—The special engineer-
Lippincott, consisting of the well-
known engineer, J. H. Quinton of Quin-
ton, Cal.; Dan G. Martin of Idaho Falls,
Idaho; and Wiley of Boise, Idaho.
The committee has made public its
report to the citizens of Mackay.

The citizens of Mackay in June sent
a committee to Los Angeles, Cal., and brought Engi-
neer J. B. Lippincott to Mackay to gain
first-hand knowledge of the dam and
the safety of their lives and property, located
three miles below the dam, which is
at "the narrows" of the Big Lost
River.

Explained by The Tribune six weeks
ago, the Lippincott report severely criti-
cized the construction. Upon its receipt
the board of directors of the Mackay
Dam and Power Company, consisting of
J. B. Lippincott, J. H. Quinton, J. E. Mar-
tin, and Wiley, met and decided to
appoint a committee to report on the
accuracy of the Lippincott report.
The committee, consisting of J. H. Quinton,
J. E. Martin, and Wiley, met and decided
to appoint a committee to report on the
accuracy of the Lippincott report.

The committee of engineers, composed
of J. H. Quinton, D. G. Martin and A. J.
Wiley, was filed with Governor Brady
today, and released today. The report
is a complete vindication of Special En-
gineer J. B. Lippincott of Los Angeles,
who condemned the work on the
dam in a special report made at the in-
vite of the citizens' committee of
Mackay. The conclusion of the report
of the committee is as follows:

We believe that it may be possible to
construct a lower dam and utilize some
of the material and work done on the
dam in such a way as to in-
crease the water in the reservoir to a depth
of 100 feet. This would secure tempo-
rary relief for the settlers in the valley
for irrigating their land and for
other purposes, without endangering
the safety and property of the citizens of
Mackay or the loss of the river valley.

is a complete vindication of Special En-
gineer J. B. Lippincott of Los Angeles,
who condemned the work on the
dam in a special report made at the in-
vite of the citizens' committee of
Mackay. The conclusion of the report
of the committee is as follows:

settlers are going to "get off" are the
questions which may be ferreted out by a
grand jury. A land owner under this
project told me that he understood that
a portion of the securities of the people
on this tract had been put up as security
to obtain money to aid the Neiver-Trow-
bridge company in their Colorado dif-
ficulties.

Should a grand jury meet, the courts
will be able to fix the responsibility for
this evident jobbery and nip in the bud
the attempt of "grafters" to revel in
Idaho's Carey act lands.

The solution of this problem is of more
importance to the state of Idaho than
any one thing which faces her people
today. If the state fails to protect the
good name of these acts, and numerous
projects are in a sorry plight, through
inefficient engineering, incompetent con-
tractors and official recklessness, it is go-
ing to hurt the meritorious ones that are
proceeding according to law along per-
fectly legitimate lines.

NEW YORK, Sept. 9.—The charge that
thousands of dollars had been deposited
to his credit by representatives of street
railway interests was made before the in-
vestigation committee of the legislature
today against former Senator Goodell of
Orange county.

Extracts from the books of the broker-
age firm of Ellingwood and Cunningham
showed that in less than five years the
former senator had \$24,800 placed to his
credit, and that at least \$13,300 of this
amount had been furnished by officials of
the Metropolitan Street Railway com-
pany of this city and the New York Rail-
way association.

The committee adjourned until Wednes-
day.

NEW YORK, Sept. 9.—That the vigi-
lance of the customs agents at this port is
profitable, is shown by a report from
Surveyor Henry, showing that \$100,000
worth of jewelry has been seized from al-
leged smugglers during the last two
months. More than half the gems were
taken from women and about half is still
in the hands of the authorities awaiting
classification or adjudication.

The recent prosecutions, the surveyor
says, have begun to have an effect on the
passengers who formerly tried to smuggle
and the declarations are being made with
greater care and accuracy than ever be-
fore.

BOSTON, Sept. 9.—The opinion that
the United States has been worsted in the
fisheries dispute was discounted by
Congressman Augustus P. Gardner, Con-
gressman Gardner represents the Glouces-
ter district in congress, and with his
father-in-law, Senator Lodge, handled
the case of the Gloucester fishermen at
Washington.

In an interview on the local bearings
of the decision Congressman Gardner
discussed the practical effects on New
England fishing and pronounced them
to be of little or no disadvantage, while
certain obvious advantages have been
gained by having the dispute at an
end.

FOUND WITH FATAL CASH IN THROAT

Well-Known Ship Master of Ta-
coma Is Attacked by Per-
sons Unknown.

TACOMA, Wash., Sept. 9.—Capt. T. D.
Blom, prominent in shipping circles and
head of a codfish company, was found
today in a park in the heart of the city
with his throat cut. He probably will
die. He had closed a big fish deal yester-
day, selling a schooner load of codfish to
a San Francisco firm. It is believed
he was attacked by a robber while on
his way to the home of a friend.

Captain Blom returned from the Alaska
fishing banks last Sunday with his ship
Fortune, after having a very profitable
voyage.

He was president of the Blom Codfish
company, with headquarters at Bock-
ton, near Tacoma. He was 42 years old.
His business associates do not believe it
was a case of attempted suicide. He ex-
pected to sail for the north in a few
days.

When his stenographer left his office
last evening, Captain Blom said to her:
"If I should go to the bottom, my
papers and everything are in the safe."
Doctors declare the assault must have

taken place between 1 and 2 o'clock this
morning, as he would have had to die
if it had been earlier.

Captain Blom was still unconscious at
noon and the doctors were not hopeful
for his recovery.

NEW YORK, Sept. 9.—The opinion that

FIND SKELETON OF MAN PROBABLY MURDERED

SEATTLE, Wash., Sept. 9.—The
skeleton of a man which was found lying
in the thickets half a mile from
the Riverside station on the in-
terurban line south of Seattle
yesterday by Edward Oakes,
who was returning from a hunt-
ing trip. The police believe
that the man was murdered.

No weapon was found. From
the position of the clothing
Coroner James C. Snyder is led
to believe that the body was
strayed from the borders of the "show
me state." He welcomed them all right,
but was inclined to ask why they ever
went away in the first place.

Mr. Clark also reproached a his hearers
for permitting Missouri to take a back
seat, as he said it had done.
"Missouri has taken a back seat" too
long," he said. "We have done the work
and the other fellows have got the glory.
Missouri has never had a president, a ju-
stice of the supreme court or a speaker of
the house. It is time we had all these
offices, and I'm going to see to it that we
get one of them right away."

CHAMP CLARK FACETIOUS IN HOMECOMING SPEECH

MOBERLY, Mo., Sept. 9.—"If I am
elected speaker of the next house of
representatives, I will drive a team of
Missouri mules down Pennsylvania ave-
nue."

The foregoing is the promise Congres-
sman Champ Clark made to a crowd of
visitors at the homecoming celebration
here, in the course of an address. The
promise pleased the crowd and for several
minutes the speaker was unable to pro-
ceed with his speech, on account of the
cheering and yelling.

It was Mr. Clark's assigned duty to
welcome home Missourians who had
strayed from the borders of the "show
me state." He welcomed them all right,
but was inclined to ask why they ever
went away in the first place.

Mr. Clark also reproached a his hearers
for permitting Missouri to take a back
seat, as he said it had done.
"Missouri has taken a back seat" too
long," he said. "We have done the work

Free to Weak Women! \$3.50 Recipe Cures Female Troubles—FREE

Restores strength to weak women, re-
lieves pain, removes inflammation, suf-
fering and distress. Cures leucorrhoea,
whitish discharges, ulceration, robs the
painful period of its terrors, regulates
scanty, difficult or profuse menstruation,
and this healing, health giving prescrip-
tion for the ailments peculiar to women
is free—free to you—free to mother,
daughter, sister, friend—free to any suf-
fering woman.

Just drop a line like this—Dr. A. E.
Robinson, 1714 Luck Bldg., Detroit,
Michigan, and the doctor will send you
the recipe by return mail, free of charge.
If you are worn and nervous, weak and
discouraged, if you are bloated, emac-
iated, constipated, have headaches, suf-
fer from loss of sleep or appetite, or
have any of the physical sufferings and
complaints, write to Dr. Robinson for his free
prescription and so cure yourself at home
quietly and quickly. He thinks every
suffering woman should have a copy, for
he believes it is the quickest acting, up-
building, restorative remedy ever devised
for woman's ills.

It builds up frail, delicate, run down
women, restores the broken health,
strengthens the feeble constitution, re-
pairs the shattered nerves and removes
the torturing pains of inward agony. It
will make you feel like a new woman,
will save you from physical suffering and
misery and will enable you to enjoy the
sunshine and happiness which only per-
fect health can bring.

The remedy is entirely harmless, as
you will see when you use it, but it has
great healing, strengthening and pain-
conquering power. Tested by time,
proved by experience, Dr. Robinson is
convinced this remedy is the surest-act-
ing combination for the permanent cure
of diseases, weaknesses, disorders and af-
fections of women ever put together.
Send name and address today so you can
start using the remedy at once.
